What our parents have to say?

Karri App is simply the best. No more shouting to the kids as to why they didn't tell me about the R5 for civvies a day before, no more mess in the house turning everything upside down looking for coins.

The best and the most user friendly app!!!! I loooooove it!!!! It has made my life as a mother of 4 easier as I don't even have to think about all the monies that are requested from school, it's just at the tip of one's finger!!!
